

Sekisui Chemical Co., Ltd. Exhibited at Sewage Works Exhibition 2014

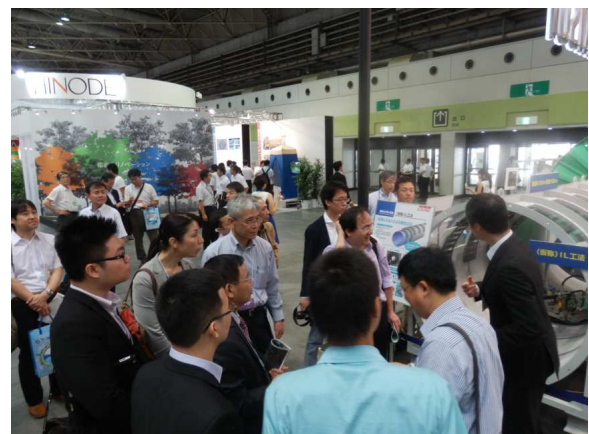

Sekisui Chemical Co., Ltd. exhibited at Sewage Works Exhibition 2014 held in Osaka from July 22 till 25th.

This year, the content of exhibition was based on “Acceptance of Kawachinagano City Sewer Pipeline Network Comprehensive Management Contract”. This included “Pipeline Inspection & Diagnosis System” and demonstration of currently in development Pipeline Renewal Technology, “IL Method (tentative name)”. It showed capability to conduct comprehensive project from inspection & diagnosis till product development, installation and maintenance.

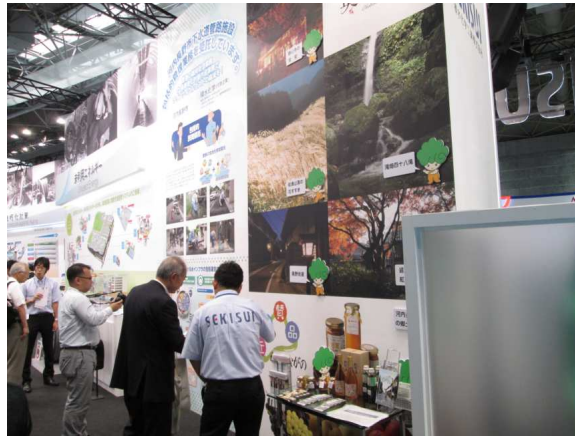

Especially for the section of Comprehensive Management Contract for Kawachinagano City, points of interest and regional goodies of that city were shown in addition to the project scheme and its performance itself.

This year, our booth got highest award among all exhibitors. This award was selected by votes from visitors of this trade show. We appreciate for those who voted for our booth, and would like to proceed technology development furthermore to contribute social infrastructure.

We hereby would like to express our appreciation for all visitors to our booth as well as people cooperated for the set up of this exhibition.
